Talking About Customs and Traditions

Cities have different customs and traditions. In North America, people from different parts of the world bring their traditions and customs to the city they live in.

For example, cities like New York and San Francisco have a Chinatown, and a Little Italy. These are neighborhoods where people from China or Italy choose to live and often celebrate traditions from their home countries.

In North America, it is very common to start a conversation with a stranger on the street. Remember to be polite!
